

Digital Marketing and Meta Ads Assessment

Section A – Basics (Digital Marketing)

1. What is Social Media Marketing?

Social Media Marketing (SMM) is the process of using social media platforms to connect with your audience to build your brand, increase sales, and drive website traffic [cite: 1]. It involves publishing great content on social media profiles, listening to and engaging with your followers, analyzing your results, and running social media advertisements [cite: 1].

2. Define Content Pillars with an example.

Content pillars are a set of 3–5 topics or themes that your brand uses to create content [cite: 1]. They ensure your brand messaging remains consistent and focused.

Example: For a coaching institute, pillars could include: 1. Student Success Stories, 2. Educational Tips/Subject Matter Expertise, 3. Behind-the-Scenes/Institute Culture.

3. What is the difference between Reach, Impressions & Engagement?

- **Reach:** The total number of *unique* people who have seen your content [cite: 1].
- **Impressions:** The total number of times your content was displayed, regardless of whether it was clicked or not (a single person can account for multiple impressions) [cite: 1].
- **Engagement:** The total number of interactions with your content, such as likes, comments, shares, and saves [cite: 1].

4. What is a Content Calendar? Why is it important?

A content calendar is a written schedule of when and where you plan to publish your upcoming content [cite: 1]. It is important because it ensures consistent posting, allows for better planning of marketing campaigns, and helps maintain a balanced content mix [cite: 1].

5. What is Hashtag Strategy?

A hashtag strategy involves using a intentional mix of hashtags (broad, niche, and branded) to increase the discoverability of your content by reaching users who are interested in specific topics [cite: 1].

Section B – Practical Tasks (Digital Marketing)

Task 3: Competitor Research

(Note: This should be filled based on your specific local competitors.)

Competitor	Strengths	Improvements
Comp 1	High engagement on Reels	Better use of educational carousels
Comp 2	Frequent daily posts	More focus on community building
Comp 3	Professional branding	More behind-the-scenes content

Section C – Mini Project: 1-Week Awareness Campaign

- **Objective:** Brand Awareness for a local digital marketing workshop.
- **Target Audience:** Students (18-25) and job seekers in Rajkot.
- **Format:** Instagram Reels and static graphics.
- **Outcomes:** Reach 5,000+ local users; 20+ workshop inquiries.
- **KPIs:** Total Reach, Profile Visits, DM Inquiries.

Meta Ads Assessment

Section A – Basics

1. **What are Meta Ads?** Paid advertisements run across the Meta ecosystem (Facebook, Instagram, Messenger, Audience Network) to reach targeted users based on demographics, interests, and behavior [cite: 1].
2. **Campaign → Ad Set → Ad Structure:** The campaign holds the goal (e.g., traffic), the ad set defines who sees it and where (audience/budget), and the ad is the actual visual/copy creative [cite: 1].
3. **Boost Post vs. Ads Manager:** Boosting is a simplified tool for quick engagement, whereas Ads Manager offers granular control, advanced targeting, and optimization options [cite: 1].
4. **3 Campaign Objectives:** 1. Awareness (Reach), 2. Traffic (Clicks), 3. Leads (Form completions) [cite: 1].
5. **What is Pixel?** A tracking code placed on a website to measure the effectiveness of ads by understanding actions people take on the site, crucial for retargeting [cite: 1].

Section B – Practical Tasks (Industry: Education)

- **Audiences:**
 - Cold: Interests (Digital Marketing, Education), Location (Rajkot), Age (18-24).
 - Warm: People who visited the website or interacted with Instagram in the last 30 days.
 - Retargeting: People who visited the course sign-up page but did not complete the form.
- **Budget:** Split budget (e.g., 50% Cold, 30% Warm, 20% Retargeting).

Section C – Mini Project: Meta Ads Plan

Objective: Lead Generation for Digital Marketing Course. Focus on 3 ad sets (Cold/Warm/Retargeting), allocating budget toward high-converting interests, and using creative testing for ad copies.
